MICHAL HARBÁČEK

IT OPERATIONS SPECIALIST | TRANSITIONING TO CYBER SECURITY
CONSULTING & ISM/GRC

ABOUT ME

Professional with 9 years of experience in **IT Operations and Incident Management** within an enterprise environment. With a solid foundation in infrastructure, ITIL methodology, and process management, I possess a deep understanding of how systems function in practice and where risks emerge. I have made a strategic decision to transition this technical and process expertise into the field of **information security**. I am currently studying **Python and AI (LLM/RAG)** to potentially automate repetitive tasks and process templates, while utilizing **Microsoft Azure** to gain a broader perspective and orientation within security processes.

WORK EXPERIENCE

Customer Care Rep III / Tech Solution Consultant 03/2017 – Present
Hewlett Packard Enterprise s.r.o., Prague

International team with an overlap into technical consulting and process management.

- **Technical Solution Consultant:** Diagnostics and troubleshooting of faults on Industry Standard Servers and storage solutions. Proposal of action plans for remediation and risk mitigation.
- **Process Management:** Research and implementation of global processes for local use. Management of the process library ensuring compliance and efficiency.
- **Project Leadership:** Leading the "Single Point of Contact" project for a key customer.
- Mentoring new colleagues and coordinating escalations.
- Tools: Salesforce (ticketing system), internal log analysis tools.

Client Advisor 03/2016 – 01/2017
UniCredit Bank Czech Republic and Slovakia, a.s.

- Analysis of client needs and risk management within portfolio management.
- Communication across departments and resolution of non-standard requests.
- Adherence to banking regulations and security standards.

EDUCATION

Business and Administration (Studies) 2013 – 2015
Czech University of Life Sciences Prague

Post-secondary English Language Studies 2012 – 2013
Language School Spěváček, Prague
